

# Certified Performance.

Chroma 8000  
Test Equipment

Our **Turbo-Cool® 1KW**, the world's best performing computer power supply, is the first and *only* unit to come with its own individual **Certified Test Report**. Why the documentation? You deserve honest facts—not hype. With so many companies making false and misleading claims, our unique test program insures that you get what you pay for and that *your* individual power supply will perform according to the industry's most stringent specs.
